EXPERIENCE

Full Stack API Developer

Atomic47 Labs Inc.

📅 Jan 2021 – April 2021   📍 Vancouver

- Helped design core API components.
- Worked side-by-side with clients to address their requirements, and provide tools to fulfil those requirements.
- Work with the core development teams to deploy API modules as part of production systems.
- Establish scalable, efficient, automated processes for large-scale data analyses and automation.

Lead Full Stack Developer

University of British Columbia

📅 Sept 2019 – Dec2020   📍 Kelowna

- Led a team of 4 developers with operations, priorities, and development goals, utilizing Agile techniques such as daily/weekly scrums.
- Weekly meeting with client and project lead.
- Constructed, optimized, and tested online wellness platform, from the ground up, despite tight deadlines.
- guided and assisted back-end development, front-end development, and database management.

Co-op Faculty Learning Technologies Rover (LTR)

University of British Columbia

📅 Sept 2019 – August 2020   📍 Kelowna

- Provided just-in-time assistance to faculty, staff and students with Canvas and its integrated/related online tools (e.g., Collaborate Ultra, Zoom, Kaltura, WeBWork).
- Became familiar with and provide advice on learning tool availability and selection
- Assisted course instructors and students with DIY video and screen casting tools such as Kaltura Capture and Camtasia.
- Supported users in the use of variety of integrated tools.
- Created clear and detailed step-by-step documentation and how-to videos.

Computer Technician

BC Technology and Learning Center

📅 Jan 2016 – Apr 2016   📍 Vancouver

- Insured the functionality of computers and their peripherals and entering them into the database.
- Refurbished, and tested computers, Printers, and electronics.
- Troubleshoot and fixed system errors.
- Installed and activated operating systems, utility software, etc.
- Cloned or copied images of computer files from one system to multiple hard drives.
